

**SIBCC 2012 Detailed Program
Tuesday 23 October 2012**

Room	Bayside Auditorium B Plenary Session	Bayside 102	Bayside 103	Bayside 104	Bayside 105	Bayside 106
0900 - 1100	Personalised Medicine - Are we there yet?	ICSN: Working Group Meeting: International Test Sets	Concurrent session	ICSN: Working Group Meeting: Screening Participation Rates	ICSN: Working Group Meeting: DCIS	ICSN: Working Group Meeting: Radiology Feedback
Chairperson	Prof John Boyages & Ms Maxine Morand					
	Welcome Address SIBCC Chair: Professor John Boyages					
	Do we still need the surgeon? - Laura Esserman					
	Does genetics matter? - Ross McKinnon					
	The pathologist's view - Fraser Symmans					
	The patient's perspective - BCNA Rep					
	Panel					
1100 - 1130	MORNING TEA					
1130 - 1300	Personalised Medicine - Practicalities and Pitfalls	ICSN: Working Group Meeting: International Test Sets	Radiography Symposium	ICSN: Working Group Meeting: Screening Participation Rates	ICSN: Working Group Meeting: DCIS	ICSN: Working Group Meeting: Radiology Feedback
Chairperson	Prof John Boyages & A/Prof Elizabeth Salisbury		Ms Judy Bursle Ms Harj Bariana			
	The view from the bunker - Thomas Buchholz		Communication with Clients & Colleagues - Jemma Gilchrist			
	The view from the bench-top - Adrian Harris					
	When the doctor is the patient - Jane Dahlstrom					
	Risk based mammographic screening - ICSN Rep		Challenges in Digital Radiography: A Radiographers Perspective - Jill Miller			
	Panel Discussion - Julie Thompson					
1300 - 1400	LUNCH					
1400 - 1530	Personalised Medicine - Can we individualise local therapy?	ICSN: Lung Cancer Screening Interest Group	Radiography Symposium	ICSN: Primary Care and Screening Interest Group		
Chairperson	A/Prof Elizabeth Salisbury Dr James French		Ms Judy Bursle Ms Harj Bariana			
	Optimizing the use of radiation therapy - Thomas Buchholz		Correlation: Mammography/Ultrasound			
	Does regional control matter? - John Boyages					
	Neo-adjuvant treatment - is it worth it? Alastair Thompson		Ergonomics: Work Health & Safety - Sanja Staracek			
	Are we dumbing down cancer surgery? - Owen Ung					
	Can we individualise breast and axillary surgery? - Elisabeth Elder					
	Panel					
1530 - 1600	AFTERNOON TEA					
1600 - 1730	Managing high risk women		Radiography Symposium	ICSN: Primary Care and Screening Interest Group		Technical challenges in Radiation Therapy - Prof Thomas Buchholz
Chairperson	Ms Carole Renouf & Prof Michael Friedlander		Ms Judy Bursle Ms Harj Bariana			A/Prof Susan Pendlebury & Dr Tim Wang
	Managing the high risk individual - Laura Esserman		Advance Practice - Jo Debono, Anne Polous, Sheila Moran			This session is aimed at the radiation oncologist, radiotherapy registrars and other interested clinicians. Two to three case studies will be presented examining issues such as dose, volume, fractionation, treatment of the internal mammary chain, use of bolus and breath holding
	Can we prevent breast cancer? - Kelly-Anne Phillips					
	The high-risk clinic- Does it work? - Judy Kirk					
	Psychosocial Implications - Bettina Meiser		Radiographer Experience - Selin Prasad & Susan Ho			

	Panel		Group Panel Discussion - Jo Debono, Anne Polous, Sheila Moran			
1730 - 1800	Welcome & Keynote Address					
	Professor John Boyages & Chair of ICSN, Chair of BCNA and Minister for Health (pending)					
1800 - 2000	Welcome Reception					

**SIBCC 2012 Detailed Program
Wednesday 24 October 2012**

Room	Bayside Auditorium B Plenary Session	Bayside 102	Bayside 103	Bayside 104	Bayside 106	
0730 - 0830			Breakfast Session: Exercise as Medicine Professor Robert Newton	Breakfast Session: ANZ BREASTSURG		
0900 - 1100	SIBCC & ICSN: Breast Cancer Around the World (0800)	Surgeons Symposium	Breast Care Nursing Symposium	Allied Health Symposium: Physical Rehabilitation and wellness after treatment for breast cancer	Pathology Symposium	
Chairperson	Welcome - Prof John Boyages	Dr Kylie Snook & Dr James French	Ms Elisabeth Black & Ms Jenny Cooper	Ms Louise Koelmeyer	A/Prof Elisabeth Salisbury Dr Rosemary Ballaine	
	History and Current Efforts of the ICSN - Rachel Ballard-Barbash	Mastectomy incision options for large breasted women - Daniel de Viana	Professorial Debate: How long is a piece of string? The role of the breast care nurse in 2012: Professor Sanchia Aranda , Mei Krishnasamy, Patsy Yates & Kate White	Breast Cancer - Past, Present and Future - Owen Ung	Tissue based indicators of chemotherapy response - Fraser Symmans	
	Cancer Burden in Developed and Developing Countries - David Forman	How I do a 2 stage implant based reconstruction. Pearls / tips / tricks - Cindy Mak		The Future of Breast Surgery - Oncoplastic Surgery - Elisabeth Elder	Pathology based management of lobular neoplasia - Sunil Lakhani	
	Breast Cancer Burden in China – Issues and Challenges - Wan-Qing Chen	How I do a 2 stage implant reconstruction. Pearls / tips / tricks - Garry Buckland		Nurse-led follow up. Is it working? Mei Krishnasamy	HER2+ breast cancer in the era of universal testing - Rosemary Balleine	
	BreastScreen Australia-current status and challenges- Helen Zorbas	Future of breast reconstruction: The use of ADM's / Mesh - Belinda Scott		Practical management of sexual side effects - Kate White	Rehabilitation of the arm following treatment for Breast Cancer - Sharon Kilbreath	
	Part 1: Benefits, Harms, and Costs of Cancer Screening Programs/Factors Influencing Policy and Decision Making	How I do a NAC reconstruction? Thomas Lam			Psychosocial/Survivorship issues with Breast Cancer - Kerry Sherman	Ki67 testing for breast cancer - Understanding what it means - Nirmala Pathmanathan
	Eugenio Paci	How I do a NAC reconstruction? Venkat Ramakrishnan				
	Submitted Abstracts (breast)	How I do an LD flap reconstruction?				
1100 - 1130	MORNING TEA					
1130 - 1300	Part 2: Benefits, Harms, and Costs of Cancer Screening Programs/Factors Influencing Policy and Decision Making	Surgeons Symposium	Breast Care Nursing Symposium	Allied Health Symposium: Physical Rehabilitation and wellness after treatment for breast cancer	Pathology Symposium	
Chairperson	Chairpersons name:	Dr Catharina Ihre-Lundgren Elisabeth Elder	Dr Ms Kim Kerin-Ayres Ms Jenny Cooper	Ms Katherine Maka	A/Prof Elizabeth Salisbury Dr Rosemary Ballaine	
	Submitted Abstracts (breast)	Nipple Sparing Mx: How I do it? - Laura Esserman	Making sense of triple negative disease - Rina Hui	Understanding Radiotherapy and Implications for Allied Health - John Boyages	The Pathologist and Breast Screening: When to say when - Farshid	
		Lipofilling: Is Australia ready: The How, When & Why. - Venkat Ramakrishnan	Current management of ER Positive Disease - Adrian Harris	Making sense of Adjuvant Systemic Therapy for Early Breast Cancer - Nicholas Wilcken	Diagnosing basal-like breast cancer - Miller	
		Breast Reshaping Options? Quadrant by quadrant approach incl. central resections - Richard Martin	Current Surgical Management of the Axilla - Alistair Thompson	Psycho-sexual issues with Breast Cancer - Kate White	Breast cancer tumour banking: A Pathologists Perspective	
		Nipple Sparing Mx: How I do it? - James French	Making sense of post-mastectomy radiation therapy - Boon Chua	Panel discussion – Is there a Role for Allied Health in the Management of Breast Cancer? - Meagan Brennan, John Boyages, Nicholas Wilcken, Kate White, Dragana Cepnija	The current role of cytology in breast cancer diagnosis and management - Elizabeth Salisbury	
		Surgical Treatment in China - Zhang			Pathology and the Patient: Communicating with consumers about breast cancer pathology -	
1300 - 1400	LUNCH					
1400 - 1530	ICSN: Evaluating New Technologies in Breast Cancer Screening		Physiotherapy and Exercise: Recent Advances	Nutrition & Breast Cancer	Plastic Surgery & Reconstruction - 101	
Chairperson	Chairpersons name:		Ms Sharon Czerniec	Ms Kellie Billinski	Dr Garry Buckland	
	Submitted Abstracts (breast)		Taking evidence in the clinic - Katherine Maka and Dragana Cepnija			
			Pink Pilates - Jess Dougherty			
			Aromatase Inhibitors / Chostrocondritis			
			Panel Discussion			
1530 - 1600	AFTERNOON TEA					

1600-1730	Pre-invasive Disease	ICSN: Factors influencing policy and decision making	Lymphoedema: Translating Evidence into Practice	End of Life Care	Breast Cancer Genetics
	Prof John Boyages & Prof Michael Bilous		Ms Dragana Ceprnja	Dr Philip Lee	Prof Judy Kirk
	Understanding disease evolution - Sunil Lakhani	Overview - Dik Habbema	Psychosocial effects of living with lymphoedema - Rosalind Bye		
	What is the evidence for over-diagnosis?	Cervical: Peter Sasieni	The Use of Bioimpedance to Evaluate Lymphoedema - Sharon Czerniec		
	What is the role of MRI? - Shih-Chang (Ming) Wang	Colo-rectal: Graham Young	Swelling over the First Year - Louise Koelmeyer		
	Optimising loco-regional control - Thomas Buchholz	Breast: Mireille Broeders	Panel Discussion		
	Does hormonal treatment have a role? Kirsty Stuart	Poster Session (1700)			
	Panel	Posters			
1900-2200	ICSN Dinner				

**SIBCC 2012 Detailed Program
Thursday 25 October 2012**

Room	Bayside Auditorium B Plenary Session	Bayside Auditorium A	Bayside 102	Bayside 103	Bayside 104	Bayside 105
0730 - 0830				Breakfast Session: Oncotype Dx		
0900 - 1100	ANZ Breast Trials Group Session	BCNA Session	Proffered Papers	Plastic Surgery Symposium	ICSN: Benefits, Harms and Costs of Screening Programs/Factors Influencing Policy and Decision Making (Other Cancer Sites)	Communicating Risks to Patients
Chairperson	Prof Nicholas Wilcken		Dr Rob Sutherland	Dr Garry Buckland		Dr Berta Geller, Prof John Boyages & Dr Kerry Sherman
	Lessons Learned and Opportunities - Laura Esserman	Welcome and Keynote Address	Research Papers		Submitted Abstracts (Other Cancer Sites)	This session will examine key questions about how to communicate risks and numbers to patients. This includes: 1. Using Adjuvant Online! 2. Understanding how a patient's personality can influence your communication style. 3. How to deal with statistical illiteracy common to patients and clinicians 4. Understanding absolute vs relative risk 5. Communicating a patient's prognosis. Audience participation encouraged. Share some of your tough cases.
	Challenges for the Pathologist - Fraser Symmans					
	Recent Results from Neoadjuvant Breast Cancer Trials - Nicole McCarthy					
	New Directions from Neoadjuvant Breast Cancer Trials - Fran Boyle					
	Panel Discussion Adrian Harris					
1100 - 1130						
1130 - 1300	Planning Effective Adjvant Therapy	BCNA Session	Proffered Papers	Plastic Surgery Symposium	ICSN: Evaluating New Technologies and Their Readiness for Incorporation into Organized Screening Programs	
Chairperson	Prof Nicholas Wilcken		Dr Rob Sutherland	Dr Garry Buckland		
	What recipe of chemotherapy should I use? - Rina Hui	Personalised Medicine	Research Papers		Lung Cancer Screening: US Perspective - Christine Berg	
	The TARGIT Trial - Is one enough? - David Joseph					
	What fractionation should I use? - Thomas Buchholz					
	What hormonal tablet should I use? - Adrian Harris					
	Panel					
1300 - 1400			LUNCH			
1400 - 1530	Oncoplastic Surgery: A Multidisciplinary Overview	BCNA Session	Proffered Papers	Cancer Council NSW Session - 1	ICSN: Roles of Allied Health Professionals and Lay Health Workers in Screening	All the Glitters is not Gold
Chairperson	Dr James Kollias		Prof Michael Bilous	Dr Andrew Penman		Prof Shih-Chang (Ming) Wang
	Who does what - A US perspective? - Laura Esserman	Physical Activity & Bone Health	Clinical Papers		Roles of Allied Health Professionals - Wendy Atkin	
	The Australian view - James French					
	What's happening in the UK? - Venkat Ramakrishnan					
	Is there room for the plastic surgeon? - Thomas Lam					
	How does radiation fit in? - Thomas Buchholz					
	Panel					
1530 - 1600						
1600 - 1730	Life After Breast Cancer	BCNA Session	Breast Cancer Pathology 101	Cancer Council NSW Session - 2	ICSN: Feasible Technology Approaches to Screening in Low Resource Countries	Radiation Oncology and Breast Cancer 101
Chairperson	Dr Richard De Boer & Ms Elisabeth Black		Dr Nirmala Panmanathan	Dr Freddy Sitas		Dr Tim Wang
	Physical activity and breast cancer - Rob Newton	Family History and Menopause			Moderator: Cervical cancer research from NCI/DCEG	Have you ever wondered how radiation therapy is given, why it works and what all the terms Gray, photon, bolus, tangents and so mean. This session is aimed at students, trainees, nurses and allied health staff or any doctors who missed out on a
	Working with the General Practitioner - David Weller					

	Sexual well-being after treatment - John Eden				Indian Perspective: Regaswamy Sankaranaryana	
	Vitamin D and breast cancer - Rebecca Mason				Latin Americal Perspective: Rolando Herrero (cervical)	The session will also include some of the basic rules as to when radiation therapy is recommended and some of the controversies.
	Taking care of bones - John Eisman				Thailand Perspective	
	Panel :Speakers + Michelle Marven				China Perspctive: You Lin Qiao (esophageal)	
1730 - 1830				ASBD Networking Drinks	1700 - 1800: Working Group Update	
					1800 - 1830: ICSN Planning for 2014 Meeting	
1900 - 2300	Congress Dinner, Dockside					

**SIBCC 2012 Detailed Program
Friday 26 October 2012**

Room	Bayside Auditorium B Plenary Session	Bayside Auditorium A	Bayside 103	Bayside 104	Bayside Gallery
0800 - 0900			ASBD AGM		
0900 - 1100	ASBD & ANZ BreastSurg Session: Nipple sparing mastectomy	BCNA Session		Concurrent Session- NBCF Annual Research Update	Metastatic Disease - 1
Chairperson	Chairpersons name:				Dr Fran Boyle
	Oncological aspects: the case for NSM - Jim Kollias	New Directions in Breast Cancer Treatment			Role of Angiogenesis - Adrian Harris
	Oncological aspects: the case against NSM - Chris Pyke		The role of PET-CT scanning - Kate Saunders		
	Radiology perspective - Shih-Chang (Ming) Wang		Treatment of small-volume brain disease - John Fuller		
	Pathology perspective - Nirmala Panmanathan		New directions in HER2-positive disease - Richard De Boer		
	Radiation perspective - Tim Wang				
	Reconstruction options - Venkat Ramakrishnan		Panel		
1100 - 1130	MORNING TEA				
1130 - 1300	ASBD Session: Clinico-pathology session & case studies	BCNA Session		Concurrent Session- NBCF Annual Research Update	Metastatic Disease - 2
Chairperson	Chairpersons name:				Prof Nicholas Wilcken
		Sex and relationships			Treating ER-positive metastatic disease - Robin Stuart-Harris
			Treating ER-negative metastatic disease - Michael Friedlander		
			Bone Mets - When and How do I operate? - Richard Boyle		
			Bone Mets - When and How do I irradiate? - Tim Wang		
			Knowing when treatment should stop - Jennifer Wiltshire		
			Panel		
1300 - 1400	LUNCH				
1400 - 1530	Psychosocial challenges- the Elephant in the Room	BCNA Session	Systemic Treatment and Breast Cancer 101	Concurrent Session	Concurrent Session

Chairperson	Dr Kerry Sherman and Ms Elisabeth Black		Prof Nicholas Wilcken		
	Managing fear of recurrence - Jemma Gilchrist	Follow up & Managing the fear of recurrence			
	Talking sex - Kate White				
	Managing Depression - Jane Turner				
	Inequities in Cancer Care - Sanchia Aranda				
	Panel				
1530 - 1600	AFTERNOON TEA				
1600 - 16:45	Combined SIBCC & BCNA Session - The Great Debate				
Chairperson	Julie McCrossin & Nicholas Wilcken				
	Effective Care: Holistic Patient Centred-Care. Fact or fiction?				
	The patients perspective - a patient's story				
	What is Effective Care? - Alastair Thompson				
	PANEL Helen Zorbas, Bruce Mann, Patsy Yates, Tony Hobbs , BCNA Rep				
1645-1700	Conference Close				
Chairperson	Boyages, Black & Salisbury				
	Elevator Pitch:Next Congress Challenges: Harris, Buchholz, Thomson, Esserman, Symmans
